

INVACARE®
Rio™ Bath Lift

It's not just a bath lift...it's a bathing experience.

Yes, you can.®

Enjoy the freedom, independence, luxury and therapy of bathing again...

Getting around a cramped and sometimes slippery bathroom has never been easy, so it is not a surprise that many falls occur in that area of the home. In fact, more than 1/3 of people 65 years or older fall each year, primarily in the bathroom due to the wet, slippery surfaces. The good news is that it is easy to set-up safeguards that will keep you sturdy in the bathroom and ready to move forward with your day.

With the rise of new and better technology, there are more innovative and attractive products available to provide safety in the bathroom. Bath lifts that gently and safely lower and raise a person into a bathtub in particular are growing in popularity. **Enjoy the freedom, independence, luxury and therapy of bathing with a bath lift.** Bath lifts are a great solution and provide a cost-effective alternative to expensive and labor-intensive bathroom renovations. Installing simple bath safety accessories such as bath lifts, grab bars and bath mats will aid in the safety and security in the bathroom for a greater sense of empowerment and freedom.

INVACARE®
Rio™ Bath Lift

It's not just a bath lift...it's a bathing experience.
